

# DCS200E

## Digital Conference Extension Module

### Features

The conference extension module allows expansion of the entire conference system. CMU adopts DSP techniques such as feedback suppression, noise cancellation, auto gain and digital equalization. Flexible and reliable for all kinds of mini/medium/large meeting conferences.

### Technical Specifications

<b>Microphone capacity:</b>	60-280 pcs
<b>Frequency response:</b>	100Hz-18 KHz SNR: >80dB
<b>T.H.D:</b>	<0.05%
<b>Power supply:</b>	230V AC 50/60Hz
<b>Audio output:</b>	+ 18dBu balanced
<b>Output Voltage:</b>	24VDC
<b>Connection:</b>	FTP Cat6 ethernet cable
<b>Outlet:</b>	RJ45 x 4 Ethernet
