

## LBS300

### 250W LED Beam Movinghead Spot

#### Features

With its specially designed 250 Watt white COB LED engine, the LBS300 is one of the most powerful LED hybrid moving heads on the market. The LED engine produces 100,000 lm at 5 meters, the beam is flat and uniform so projections are clear and colors are rich. This fixture has a comprehensive range of features: 7°-18° zoom, CMY color mixing, 14 color wheels with CRI enhancement filter, linear CTO, 7 rotating gobos, 17 fixed gobos, two rotating prisms 3-way and 8 linear, soft edge and frosting filters, 16-bit digital dimmer and fast digital stop-flash effect. The LBS300 has low-noise operating modes so you can use the unit almost anywhere.

#### Technical Specifications

<b>Led Source:</b>	250W COB white LED
<b>Lifespan:</b>	50.000 Hours
<b>Power consumption:</b>	300W
<b>DMX control</b>	24CH
<b>Pan / Tilt movement:</b>	540°/270°, with 16 Bit resolution auto-reset function
<b>Dimmer:</b>	0-100% linear dimmer
<b>Frost:</b>	1 frost filter, soft spot
<b>Zoom angle:</b>	7-18 degree
<b>Strobe:</b>	1-25Hz, variable strobe speed
<b>Color:</b>	14colors+open
<b>Fixed gobo plate:</b>	17 gobo
<b>Rotation gobo:</b>	7colors+open, gobo rotation
<b>Prism</b>	8-facet prisms + 12-facet prisms 2 prism rotation
<b>Control mode:</b>	DMX512, Auto-Run, Master/slave
<b>RMD controlled:</b>	Yes
<b>Cooling:</b>	Intelligent fan cooling
<b>Appearance material:</b>	high temperature resistant plastic+Metal
<b>Protection level:</b>	IP20
<b>Working environment:</b>	-20 degree~40 degree
<b>Dimension:</b>	315*338*469mm
<b>Net Weight:</b>	14,8 kgs
<b>Voltage:</b>	AC110V-240V/50-60Hz
