DCS200R

Digital Conference Repeat Module

Features

DCS200R model repeater module is generally used under the table when installing in long distances and strengthens the conference system and improves its quality with the CAT6 cable.
It provides perfect communication with the DCS200M and DCS 200EX module.

Technical Specifications

Frequency response:	100Hz–18 KHz SNR: >80dB
T.H.D:	<0.05%
Power supply:	230V AC 50/60Hz
Audio output:	+ 18dBu balanced
Output Voltage:	24VDC
Connection:	FTP Cat6 ethernet cable
Outlet:	RJ45
