

LX44

4 X 4" + 4 x 1" Column Speakers

Features

The LUCASACS LX Series LX 44 is a compact yet powerful 2-pack column speaker, with each LX 44 speaker boasting four 4" woofers and four compression drivers, delivering an impressive 125W RMS and 250W program power at 4Ω. Each LX 44 includes (2) column speakers and (2) wall brackets.

The LX 44 column speakers are balanced horizontally and vertically, ensuring everyone in the audience is treated to the same high-quality audio experience. Optimized to be paired effortlessly with the Lucasacs LX Series subwoofers, specifically the LX (sold separately). Each mentioned subwoofer has 2 satellite speaker outputs, making daisy-chaining a breeze via Speakon cables (sold separately). The 2 included wall-mounting brackets allow the LX 44 column speakers to be securely mounted onto a wall, freeing up valuable floor space. Ideal for meeting rooms, courtyards, restaurants, theaters, churches, and other small to medium venues.
