

# H10SUB

## 10" ACTIVE SUBWOOFER

### Features

Introducing the LUCASACS H8SUB Subwoofers, designed for those who truly care about performance. This speaker features the LUCASACS H10SUB Active DSP subwoofer speaker with a robust 10" woofer. Thanks to its active amplifier, it delivers a powerful output of 150W RMS and 300W program power.

With its black painted casing, the LUCASACS H10SUB offers a stylish and elegant finish that suits many different environments and settings, while the 360° conical sound coverage provides an immersive sound distribution to your audience. This subwoofer speaker can be connected to 2 speakers via a different amplifier when needed, and this way, it captures the perfect sound thanks to the active crossover inside. This makes LUCASACS speakers the ideal choice for venues such as restaurants, cafes, bars, lobbies, conference rooms, auditoriums, retail stores, lodges and more!
